

# MyHomeChoiceFyldeCoast Bidding Guide

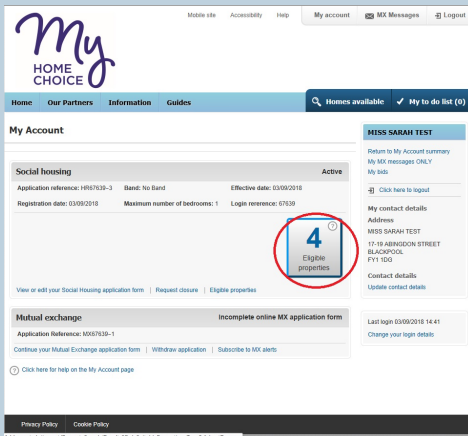

Placing a bid on eligible properties shows you are really interested in living in the property and you are in a position to move into the property quickly.

Properties are advertised daily. The best way to improve your chances is to check MyHomeChoice regularly and place bids on the eligible homes you have a serious interest in.

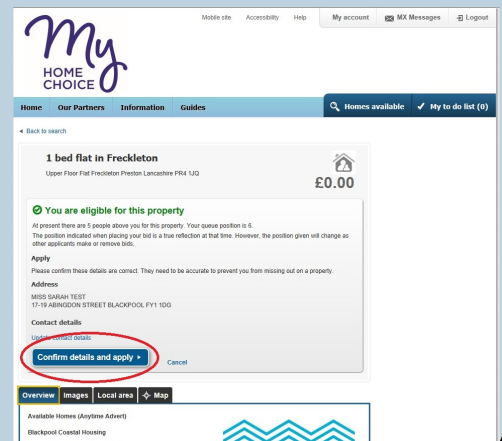

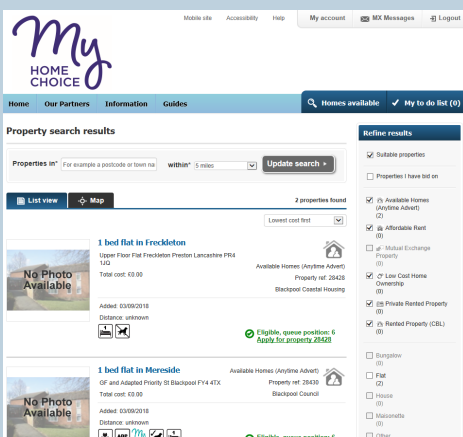

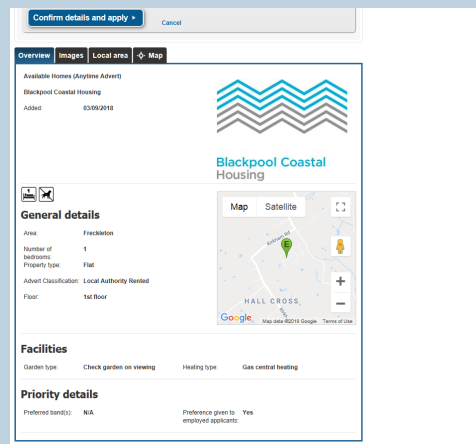

**Verification documents** will be required to support your application. Keep these safe — you will need to produce these multiple times.

You can start placing bids by logging into your account using your unique login reference number and your memorable date. Your account dashboard will show you how many properties you are eligible to bid on. Click on the tile to see your list of eligible properties to bid on.

Ensure your contact details are up to date so you don't miss out on any property offers.

'Apply for Property' will show you more details about the property and the area. Confirm details to place your bid

Try to be as realistic and flexible about the areas and the types of property that you will consider. Restricting your options will reduce your chances, but remember to only bid on those homes that you know that if offered, you would accept.
